**Contact No:** +91- 7801085815  
**Email id:** [gongativenkat04@gmail.com](mailto:gongativenkat04@gmail.com)

## Objective:

Frontend Developer with 3 years of hands-on experience (including internship) specializing in **Angular** and **React** for building responsive, scalable, and user-centric web applications. Proficient in HTML5, CSS3, TypeScript, Bootstrap, and Tailwind CSS. Strong in API integration, state management with RxJS, and cross-browser responsive design. contributing to large-scale edu-tech platforms. Git-based collaboration, and performance optimization.

## Experience and Key Skills:

- **Developed and maintained an education platform** for CPA & CMA aspirants using Angular (v8+), HTML, CSS delivering responsive, user-friendly interfaces
- **Built dynamic components and custom modules** using Angular CLI, with reusable and maintainable code practices
- **Integrated RESTful APIs** and handled HTTP communication using Angular's HttpClient module with observables and RxJS operators
- **Implemented form handling** for student registration, login, course feedback, and test submissions using both **template-driven and reactive forms**.
- **Worked with Angular Material** for responsive UI components and consistent design system implementation.
- **Utilized Git for version control**, participated in daily stand-ups, sprint planning, and collaborated with cross-functional teams.
- Building single page web applications as per customer requirements.
- Work with Client team and perform UI development activities.
- **Collaborated with backend teams** to map API responses for course data, user sessions, and test results into Angular services and models.
- **Performed unit testing and debugging** using Chrome DevTools to ensure code quality and stability before production deployments.

## Education:

- **B.Tech** from **DVR & DR.HS MIC COLLEGE OF TECHNOLOGY** with **7.15CGPA** in 2022.
- Diploma from **Bapatla Engineering College** with an aggregate of 73% in 2019

## Professional Experience:

- Completed a Frontend Developer internship at AR Technology from 10-09-2022 to 10-04- 2023.
- Completed working as a Frontend Developer in Miles Education from June 16th, 2023 to September 30th, 2025.

## Technical Skills:

Frontend	: HTML5, CSS3, JavaScript (ES6+), TypeScript, Angular (v8+), React
CSS Frameworks	: Bootstrap, Tailwind CSS, Angular Material
Tools & Platforms	: Git, GitHub, Netlify, Chrome DevTools, VS Code
Operating Systems	: Windows, Mac
Other	: RxJS, REST APIs, Responsive Design, SPA Architecture

## Role & Contribution:

- Designed and maintained scalable Angular applications using modular architecture and reusable components, adhering to industry-standard clean coding practices.
- Converted Figma/Adobe XD UI/UX designs into responsive Angular interfaces with consistent cross-browser compatibility and pixel-perfect precision.
- Integrated RESTful APIs using Angular's HttpClient to dynamically render course content, quizzes, progress reports, and user session data.
- Developed fully responsive layouts based on client design specs using Bootstrap and ensured mobile-first compatibility.
- Built and optimized custom Angular components, directives, and pipes to enhance application interactivity, maintainability, and performance increased by 30%.
- Handled asynchronous data flows and state management using RxJS operators, Subjects, and Angular services for a seamless user experience.
- Implemented UI components using Angular Material and Bootstrap for a cohesive and accessible design system across the application.
- Conducted code reviews, performed debugging, and implemented unit testing to increase code quality by 100% and coverage.
- Collaborated with cross-functional teams—backend developers, UI/UX designers, and QA—to deliver integrated, end-to-end features in sprints.

## Project Profile:

### Project #1

Title	: CPA Miles Education
URL	: <a href="https://cpa.mileseducation.com/">https://cpa.mileseducation.com/</a>
Role	: <b>Frontend Developer</b>

Team Size 8

Technology used : Angular, JavaScript, HTML, CSS, TypeScript, Bootstrap.

Description : Worked on a comprehensive edu-tech platform for **Miles Education**, India's leading training institute for US CPA and CMA certifications. As a Frontend Developer, contributed to building and enhancing key modules including user dashboards, course catalogs, video content integration, and progress tracking systems. Focused on developing responsive and reusable Angular components, implementing clean UI/UX designs, and ensuring smooth API

integrations for real-time content delivery. The platform supports thousands of students preparing for international finance certifications.

## Project #2

**Title** : CMA Miles Education

**URL** : <https://cma.mileseducation.com/>

**Role** : **Frontend Developer**

**Team Size** 6

**Technology used** : Angular, JavaScript, HTML, CSS, Bootstrap.

**Description** : Developed responsive UI components for CMA Miles, an edu-tech platform aimed at closing industry skill gaps. Focused on building course modules, dashboards, and user interfaces using Angular and Bootstrap.

## Project #3

**Title** : Masterclass Miles Education

**URL** : <https://milesmasterclass.com/app/home>

**Role** : **Frontend Developer**

**Team Size** 4

**Technology used** : React, JavaScript, HTML, CSS

**Description** : Developed responsive and interactive UI components using React for a masterclass platform focused on professional upskilling. Built course modules and user dashboards with clean, efficient code.
